

IBG CANADA LTD.

ADVANCED GLAZED STRUCTURE SPECIALISTS

SERVICES

IBG has proven itself capable of successfully fulfilling budget, design, specification and aesthetic criteria on both large and small projects in many different climates. We particularly pride ourselves on being able to manage extreme geometric designs and challenges that many other companies do not have the staff expertise and confidence to pursue. IBG offers many services to its clients, not the least of which include the following;

- skylight & curtain wall design with computer aided (Cad) implementation
 - project management & coordination throughout all project stages (preliminary design, project specific design, fabrication & installation)
 - in house shop fabrication and/or factory glazing
 - on-site support and/or consultation for installers during erection
- preliminary design & consulting with project Architects & Engineers
